ECDL 2000

Paperback. Book Condition: New. Not Signed; Module 1: Basic Concepts of Information Technology (IT) This module provides an introduction to the basic physical make-up of a personal computer and an overview of some of the basic concepts of Information Technology (IT) such as data storage and memory, the context for computer-based soft-ware applications in society, and the uses of information networks within computing. You will also gain a solid appreciation of how IT systems are found in everyday situations; how...

Reviews

This publication is worth getting. it absolutely was writtern very completely and useful. I am quickly could possibly get a pleasure of reading a written publication.

-- **Ariane Rau**

It in one of my personal favorite pdf. This really is for all those who statte there was not a really worth looking at. I realized this book from my dad and i encouraged this pdf to understand.
