Oxford University Press. Hardcover. Book Condition: New. Hardcover. 208 pages. Dimensions: 8.8in. x 5.8in. x 0.9in. What types of jobs are growing: well-paid managerial jobs or low-paid auxiliary jobs, high-end professional jobs or bottom-end service jobs Can occupational change transform affluent countries into enlarged middle-class societies Or, on the contrary, are we heading towards a future of increasingly divided class societies Do changes in the employment structure allow forthcoming generations to move towards more rewarding jobs than those held by their parents - or is downward mobility the more likely outcome This book throws new light on these timely questions by drawing on extensive evidence of employment data on the pattern of occupational change in Britain, Denmark, Germany, Spain, and Switzerland since 1990. It documents the change in the employment structure, and examines the five underlying driving forces: technology, globalization, education, migration, and institutions. The book discusses whether governments really have no other choice than either occupational upgrading with soaring unemployment or full employment with expanding low-end jobs. The book gives a clear picture of the future of work, skills, and employment in today's Europe, contributing to the debate in economic sociology and labour economics. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
