

Sericulture

By Cosmas Alfred Butele

GRIN Verlag. Paperback. Book Condition: New. Paperback. 32 pages. Dimensions: 8.3in. x 5.8in. x 0.1in. Essay from the year 2012 in the subject Biology - Zoology, grade: A, Atlantic International University (School of Science and Engineering), course: Sericulture - Master of Science (Applied Entomology), language: English, comment: Dear Alfred: as you can see in your transcript, your assignment has been evaluated. Good essay. In judging an investigation and its outcome not only seeks to determine if it says something true about the world, but if what it says is not trivial, and also how important it is. Oliv (2008, p. 36). Best regards, Dr xxx. Advisor. Atlantic International University. , abstract: Sericigenous fauna are animals that are capable of producing a natural and highly valued fibre called silk. According to Prasad et al. (2010), the word Sericigenous is derived from a Greek word Seri meaning Silk. Sericigenous fauna have a wide biodiversity, which can be primarily categorized as insect and non-insect groups. The non-insect group includes the Adriatic mussel (seashell Pinna nobilis and related species which produce silk referred to as sea silk) and a Madagascanian spider. The silk of non insect origin is of no importance to textile market as its...

Reviews

This sort of book is everything and taught me to seeking forward and more. This really is for those who statte there had not been a well worth reading. I found out this pdf from my i and dad advised this book to discover.

-- **Prof. Griffin Murphy**

It in a single of my favorite pdf. Yes, it is engage in, still an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
