Brand New Book ***** Print on Demand *****.Excerpt from Discourse of Natural Theology: Showing the Nature of the Evidence and the Advantages of the Study About the same time, our Society, as you may recollect, was strongly urged to publish an edition of Dr. Paley s popular work, with copious and scientific illustrations. We both favoured this plan; but some of our colleagues justly apprehended that the adoption of it might open the door to the introduction of religious controversy among us, against our fundamental principles; and the scheme was abandoned. I regarded it, however, as expedient to carry this plan into execution by individual exertion; and our worthy and accomplished colleague, Sir C. Bell - whose admirable treatise on Animal Mechanics pointed him out as the fellow-labourer I should most desire - fortunately agreed to share the work of the illustrations. In these we have made a very considerable progress; and I now inscribe this publication, but particularly the Preliminary Discourse, to you. It was, with the exception of the Third Section of Part I., and the greater portion of the Notes, written at the end of 1830, in 1831, and the latter part of 1833, and a portion was added in the autumn of 1834. In those days I held the Great Seal of this kingdom; and it was impossible to finish the work while many cares of another kind pressed upon me. But the first leisure that could be obtained was devoted to this object, and to a careful revision of what had been written in a season less auspicious for such speculations.
