

Studies in the Bi-Lateral Cipher of Sir Francis Bacon (Paperback)

By Gertrude Horsford Fiske

Createspace, United States, 2014. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.From the INTRODUCTION: IN 1895, Mrs. Elizabeth Wells Gallup, while studying the writings Of William Shakespeare and Francis Bacon, came to the conclusion that the chapter in Bacon s De Augmentis Scientiarum, describing a method of inserting a hidden message in a printed book by means of two differing fonts of type, must have been put there for a purpose other than that which appears in the text. When we consider the facts, we are led to the same conclusion. Methods of sending messages by Cipher have been often described, but they are generally for use in letters, though they may be used in printed books. Here we have a cipher which is intended to be used only when the text is set in type. This property of the bi-literal cipher is highly suggestive. Let us consider how a Cipher of this character can be applied. What people could go to the expense of having a book printed to insert a cipher message in it? Who would care to send a cipher message in a printed book to...
